### **Electro/Mechanical Technician (6 months temp to perm)**

YES (Yield Engineering Systems, Inc.) is a leading manufacturer of high-tech, cost-effective equipment for transforming surfaces, materials, and interfaces at the nanoscale. From startups to the Fortune 50, our customers rely on YES solutions to unleash products that change lives -- from cellphones and IoT devices, to AI and virtual reality, to diagnostic tests for COVID.

Our industry-leading vacuum cure ovens, chemical vapor deposition (CVD) systems, and plasma etching tools are driving innovation in a wide range of exciting and growing markets. We look forward to talking with smart, energetic, team-oriented people who can grow with us. We provide competitive salary and benefits, a beautiful light-filled new facility in a central location, and some of the best co-workers you'll find anywhere. If this appeals to you, please read on!

We're looking for several **Electro/Mechanical Technicians** to support our Production Supervisor in a variety of tasks related to the assembly and production of YES's products. The ideal candidate will be a motivated self-starter who is able to become familiar quickly with assembly procedures and proper protocols. This is a hands-on, detail-oriented and collaborative role for someone who is able to assure quality of their own work and assist team members to troubleshoot any issues.

This is a 6-month contract position to start, with potential for extension as needed.

#### **Job duties include:**

- Assemble, integrate, test, and troubleshoot products in a timely manner
- Maintain shop/tool management and housekeeping
- Assist with shipping and receiving logistics
- Assist with quality control, service and testing of products
- Request and return materials based on proper protocols using internal inventory log forms
- Organize and maintain assembly area; maintain detailed organization
- Assemble machines in accordance with production and shipping schedules
- Collaborate with Assembly team to assist with and resolve technical issues
- Assess and maintain inventory needed for stockroom, shipping and receiving
- Assemble electrical controllers and chassis

## **Experience/Requirements**

- Minimum two years hands-on experience in these or related functions
- Two years college or vocational training in this field or equivalent experience
- Ability to wire electrical components, and use various tools including soldering gun, voltmeter, drills, saws, sanders, tub benders
- Ability to manipulate and use CRT/screens, keyboards, mouse/pointing devices, etc.
- Ability to identify and correct issues with diagrams and blueprints
- Ability to lift 50lbs unaided, sit or stand for extended periods of time
- Must be willing to work out of an office in Fremont, CA with adherence to COVID-19 safety protocols
- Must be willing to submit to a background investigation as part of the selection process
- Must have unrestricted authorization to work in the United States

**This is a 6-month contract position, with potential conversion to a permanent position that would include healthcare and other benefits.**
