**Job Title: Functional ERP Specialist**

**Location: Bengaluru Electronics Park, India**

We are seeking an ERP Specialist to assume responsibility for performing implementation tasks and producing quality deliverables. The successful candidate will drive implementation deliverables and assist the Project Manager with organizing and controlling tasks within the work plan. They will take a leadership position on project teams, engagements, and respective consulting practices, and work with clients on an independent basis for engagements with little supervision.

**Responsibilities** will include but not be limited to:

- Providing guidance to the PS team through proactive training, sharing knowledge, and communicating best practices
- Documenting ERP processes and preparing deployment progress updates
- Running diagnostic tests and resolving issues to enhance systems performance
- Interact with members of cross-functional teams
- Coordinating all aspects of a project for a client
- Ensuring all deliverables in area of responsibility are delivered on time and on budget
- Determining direction, timelines, schedules, and activities for an area of the project
- Establishing solid working relationships through the management level.
- Possessing accurate estimating skills for various project tasks
- Providing guidance to other Professional Services consultants and clients
- Focusing on managing complex programs/projects
- Developing best practices and associated documentation
- Speaking at conferences or events

**Qualifications**

- Bachelor's degree preferred (or equivalent experience)
- 6+ years of consulting experience
- 6+ years applicable manufacturing, supply chain, and/or manufacturing accounting experience, and/or demonstrated success/knowledge
- Extensive knowledge of business processes, ERP development tools (**preferably NetSuite**)
- Experience in ERP software implementation (**preferably NetSuite**) in **manufacturing** industries

**Capabilities**

- Ability to meet utilization targets and complete project deliverables on time
- Experience with ERP implementation for a software provider (required)
- Project management skills and strong technical background (required)
- Ability to perform work plans, identify resource requirements, establish priorities for available resources, and monitor the performance of project tasks
- Customer-centric, results-oriented self-starter; able to work independently
- Strong listening, verbal, and written communication skills, including virtual presentations
- Expertise in all applicable modules of the software
- Breadth of knowledge across industry verticals
- Ability to travel up to 65%

**Compensation**

- YES offers a stimulating and fun working environment, competitive salaries and benefits, and long-term incentives.

**Additional Information**

- YES is an equal opportunity employer and values diversity. All employment is decided on the basis of qualifications, merit, and business need.
