

YES (Yield Engineering Systems, Inc.) is a leading manufacturer of high-tech, cost-effective equipment in the semiconductor industry for transforming surfaces, materials, and interfaces at the nanoscale. From startups to the Fortune 50, our customers rely on YES solutions to unleash products that change lives – ranging from cellphones and IoT devices, to AI and virtual reality, to diagnostic tests for COVID.

Our Valencia facility is expanding, and as a preferred provider of wet process technology, we look forward to talking with smart, energetic, team-oriented people who want to grow with us. We provide competitive salaries and benefits, including employee stock ownership and some of the best co-workers you'll find anywhere!

Job Title: Technical Writer

Location: Valencia, CA

Create descriptive and concise operation manuals for complex wet process equipment to be used in the semiconductor industry. Tasks include overall description of the equipment and its purpose, detailed installation instructions, functionality of each process station, description of the software interface, maintenance and troubleshooting, indexing, and compiling spare parts lists.

Responsibilities

- Write clear, easy to understand manuals and guides for installers or operators/customers to use when receiving their new equipment
- Analyze information required for the development of update of procedures and form documentation
- Research products, services, technology, or concepts to be documented such that they are easily understood by the audience
- Meet with design engineers, software developers, manufacturers, and installers to ensure that directions and descriptions are appropriate
- Review and or copyedit content developed by other members of the team
- Incorporate appropriate drawings, graphics, illustrations, and photos
- Work both independently and collaboratively as part of a team
- Prioritize and manage multiple projects at a time with custom design specifications

Minimum Qualifications

- Bachelor's degree or equivalent in English, Communications, Business Administration or Technical Writing
- 3+ years related experience or equivalent
- Fluency in technical and office software, including Word, Excel, and PowerPoint
- Excellent written and oral communication skills
- Acute attention to detail
- Creative, flexible, and innovative team player

Preferred Qualifications

- Experience in the wet process semiconductor equipment industry

- Ability to check all technical material for consistency and accuracy

Compensation

- YES offers a stimulating and fun working environment, competitive salaries and benefits, and company stock.

Additional Information

- Applicants must be currently authorized to work in the United States on a full-time basis.
- YES, is an equal opportunity employer and values diversity. All employment is decided based on qualifications, merit, and business need.
- YES prohibits discrimination and harassment of any type without regard to race, color, religion, age, sex, national origin, disability status, genetics, protected veteran status, sexual orientation, gender identity or expression, or any other characteristic protected by federal, state or local laws.
