

YES (Yield Engineering Systems, Inc.) is a leading manufacturer of reliable, high-tech, cost-effective capital equipment that transforms materials and surfaces at the nanoscale. From startups to the Fortune 50, our customers rely on YES to help them unleash products that change lives – from cellphones and IoT devices, to AI and virtual reality, to diagnostic tests for COVID.

As a preferred provider of wet and dry process technology, we look forward to talking with smart, energetic, team-oriented people who can grow with us. We provide competitive salary and benefits, and some of the best co-workers you'll find anywhere. If this appeals to you, please read on!

Job Title: Technical Project Manager

Job Location: Coimbatore or Bangalore

Key Responsibilities

- Manage the project from concept to shipment while managing everything in between.
- Negotiate with mechanical & electrical design, procurement, manufacturing, and software teams to get the tasks done as planned.
- Manage key deliverables for New Product Introduction (NPI) programs.
- Lead customer-specific programs within the Marketing & Product Management group.
- Ensure that all customer deliverables and Product Lifecycle (PLC) requirements are met on time.
- Ensure that technical responses to customer Requests for Information (RFIs) and Requests for Quotation (RFQs) are provided on time
- Develop, prioritize, and implement all programs within the Product Management group, coordinating cross-functionally with Engineering and Operations to ensure that deliverables and overall program execution meet all programs' goals (cost, schedule).
- Serve as the technical liaison between customer needs and any factory resource requirements.
- Drive cost estimates for customer-specific requests and assist in getting responses to customers.
- Drive RFI and RFQ responses to customers.
- Compile estimated cost models, submit final budget, track budget statistics, and prepare management reports.
- Determine appropriate responses to problems and emergencies.
- Provide project status updates.
- Perform other related duties as assigned by management.

Qualifications

- Bachelor's degree in Mechanical Engineering from an accredited institution. Master's degree preferred.
- 2-5 years of Project Management or Technical Product Management experience in a technology-oriented organization. Semiconductor equipment development or manufacturing experience preferred.
- Strong project management skills with the ability to work on and track multiple projects
- Project Management Professional (PMP) certification is a plus.
- Ability to handle multiple priorities simultaneously in a fast-paced environment

- Ability to act professionally with customers and resolve issues
- Adept in working in a global environment with customers, suppliers, and other YES employees
- Familiar with developing capital equipment
- Demonstrated ability to think creatively and strategically when implementing products and solving problems

Competencies

- Project management: develops project plans, coordinates projects, communicates changes and progress, completes projects on time and on budget, manages project team activities
- Problem-solving: identifies and resolves problems in a timely manner, gathers and analyzes information skillfully, develops alternative solutions, works well in group problem-solving situations, uses reason even when dealing with emotional topics
- Interpersonal skills: excellent interpersonal skills and ability to communicate effectively with both technical and nontechnical individuals. Ability to make informed decisions easily and decisively
- Written and oral communication: ability to communicate effectively with teams, management, and customers
- Teamwork: balances team and individual responsibilities, exhibits objectivity and openness to others' views, gives and welcomes feedback, contributes to building a positive team spirit, puts success of team above own interests, able to build morale and group commitments to goals and objectives, supports everyone's efforts to succeed
- Customer experience: customer-obsessed, strives for perfection at customers' sites

Compensation

- YES offers a stimulating and fun working environment, competitive salaries and benefits, and long-term incentives.
